GRADUATION CEREMONY

CLASS OF 2020

20TH JUNE 2020

DUBAI | UNITED ARAB EMIRATES

Simon O'Connor

Principal

Graduation is a cause for celebration as it marks not only what will be significant success in your A levels, but also the completion of your time at Jumeirah College. Inevitably there will be some element of nostalgia as you look backwards on what I'm sure you feel have been the 'best days of your life', but I also hope that you will be able to look forward to your futures, equipped with friendships and skills to pave the way to your success. This book will be a reminder of all those with whom you have shared your numerous experiences over the last few years and will bring back memories for many years to come.

In this, your final year, Jumeirah College has again been recognised as Outstanding, and much of this success is down to you. As our senior students you have been the role models who younger years aspire to become. In whichever roles you have taken on, whether in the exec, captaining sports, leading clubs, mentoring younger students or any other of the many activities in which you have engaged, you have been the leaders of all that we do, and for that I am extremely grateful. You embody the spirit of Jumeirah College.

Jumeirah College has been the setting for many of your successes in the past. It is now time for us to pass the baton to you, for you to take the tools you have acquired and to take responsibility for yourselves as you enter the adult world. This new world will be exciting, and at times a challenge for all of you. Hold fast to the values you have developed here and always persevere when times are hard. What your futures hold is, as yet, unwritten but I have no doubt that you will all go on to achieve great things.

Congratulations on who you have become and what you have achieved. I am enormously proud of you and look forward to hearing of the next chapters in your lives with great anticipation.

Simon O'Connor

Richard Lawton

Head of Sixth Form

Class of 2020, the celebration of your graduation today is a milestone on the journey that is life. It is a milestone that closes the door on one chapter and at the same time, one that opens the pathway of challenge for the future. The unwritten pages of your lives sit before you, but already I know that the blankest of pages are filled to the very edge with promise, hopes and dreams. Your successes will forever be a part of the history and tradition of Jumeirah College and I certainly feel privileged to have been a part of your secondary school experience. I hope that you will always look with fondness on the days that you spent as part of this exceptional community for as the Class of 2020, you have led by positive example and our younger students have undoubtedly learnt much from you.

Education is a gift and one that you have all actively engaged with. However, you have also realised that it is more than the learned activities of the classroom and is enriched even further by the variety of opportunity that you have embraced: charity work, mentoring, music and drama, sporting endeavours, business enterprise and debating but to name a few. I have witnessed your friendships, and I know that your bond will surpass the test of time as you leave the gates of Jumeirah College.

Though the miles may separate us, the memories will hold us all together, ably assisted by Zoom and WhatsApp calls. I also know that the years ahead will be exciting, no matter how tentatively you leave family and friends behind. But be assured that they will continue to love and support you just as they have done throughout these school years: a love that has helped you reach the graduation stage today and a support that has ensured that you are ready for the next part of the adventure.

I hope that you will always hold a small piece of the College in your thoughts wherever life might take you and ask that you remember that the door closing today is never truly closed: once a part of the JC family, always a part and we look forward to your visits in the years ahead. My challenge to you is a simple one: live each dream, seize every moment and grasp every opportunity that comes your way in the true spirit that I believe is the hallmark of the JC student.

Sulaiman Zaidi
JC 2013-2020

I came with my pencil case and left with Nikhil's. I learnt shortcuts make long delays. I always enjoyed Astroturf football in the rain.

Economics and Finance,

Noorain Zulfiqar
JC 2013-2020

I came with the fear of having my hair down, and left with the fear of burning down the common room. Do not take each day for granted, no matter how boring it may seem, it's better than staying at home all day.

Marketing and Management,
Queen Mary University of London, UK
