

Online Etiquette for Students

1. Ensure that your video is **enabled** so that your teacher can see you.
2. Ensure that you are **clearly visible** to your teacher through your webcam (no obstructions or moving the screen away).
3. Remember that your teacher can award both **Achievement** and **Behaviour Points** during lessons, just as they normally would in school and these will be communicated to your parents.
4. Follow your teacher's instructions and maintain your usual **high standards of behaviour**.
5. You will be completing the **same work** as your peers who are in school and you should **meet the deadlines** set by your teacher as you normally would.

Now, more than ever, it is of the utmost importance to be **kind** to each other and yourselves.
