JC Art

Students have now experienced the mock exam process and received their mock results. This valuable process gave the students insight into what to expect when the summer arrives and the real exam period is upon them. As the count down begins, students and teachers are now starting to implement extra support and revision to ensure great success for the 2019 results.

During this mock exam time the Year 13 Art and Photography students produced their coursework pieces from 15 hours of intense work over the course of 2 days. As always, the results are amazing and parents will be invited to view them, and many other pieces, during the Art Exhibition in May.

Important Safety Notice

Dear Parents,

Although many of our students walk or cycle to school, the quantity of traffic around the school site at the beginning and end of the day is significant.

The areas directly around the College are incredibly busy and our security team have witnessed several near misses caused by speeding and careless driving.

To help improve this issue, new bollards have been placed to block drivers using the pathway to the side of the school.

Please could I request that all who drive and park around the school do so with particular care, in order to keep the children safe. I do understand that the roads are busy and that this can lead to frustrations. But it is far better to be slightly late than to be involved in an avoidable accident. I would be particularly grateful if this message could be shared with any drivers who come to the school and may not see this communication.

In particular please do not drive or park on the clearly designated pavement areas which students walk across, and only use the roads, as is legally required.

Please support us in ensuring our students are safe as they make their way to and from the college.
